HOCKEY COACHES' CLINICS PLANNED DECEMBER 8, 9

The Athletics and Outdoor Education Division of the Recreation and Cultural Development Branch of the Department of the Provincial Secretary, in co-operation with the local Recreation Boards, and in co-sponsorship with the Alberta Amateur Hockey Association, will conduct four regional clinics for hockey coaches at Falher, Wainwright, Red Deer and Hanna, on Saturday and Sunday, December 8 and 9, 1963.

Those who may attend are coaches, teachers and recreation leaders over the age of seventeen, who are interested in gaining further knowledge of coaching techniques in hockey. Special emphasis will be placed on the coaching at age levels from 10 to 12 years. These are the first of a number of regional clinics which will take place throughout the province during the forthcoming hockey season.

A number of qualified instructors who are concurrently involved in active coaching will conduct the clinics. These clinics are the first step in a long range plan to upgrade the level of hockey coaching with an immediate goal of more active participation by the youth of Alberta.

The National Fitness and Amateur Sport Directorate has announced a Post-Graduate Scholarship and Fellowship Scheme, and offers this pertinent information concerning grants-in-aid.

Post-graduate scholarships are designed to assist persons already holding a Bachelor's Degree in Physical Education or Recreation to proceed to the master's or doctor's degree in Physical Education or Recreation.

The scholarships and fellowships are granted on a "merit" basis and do not take into account individual financial need. With the large number of applications being received, and the limitations on the number of scholarships and fellowships available, awards will be made to those ranking highest. All applications will receive the same careful assessment and will be ranked in order of merit.

It is essential that applicants obtain grades of sufficiently high calibre to justify the receipt of such an award. Applicants who have had successful experience as professional practitioners will be given preference.

Post-graduate scholarship applications will be considered in two categories:—
i) Those who have had successful experience as professional practitioners for three years or longer, and who have attained an average of at least second class standing in the last two years of undergraduate study. No special credit will be given to experience beyond five years. ii) Those who have had less than three years successful experience as professional practitioners in the field who have attained outstanding scholarship records.
